WELCOME TO THE MALDIVES

The Maldives is a nation of islands in the Indian Ocean that spans across the equator. The country comprises 1192 islands that stretch along a length of 871 kilometres. While the country covers an area of approximately 90,000 square kilometres, only 298 square kilometres of that is dry land. The islands are grouped into a double chain of 26 atolls.

The country's unique geography mesmerises the visitor. Reefs that offer bands of color, tiny jewel-like islands rimmed with the whitest of soft sand surrounded by the clearest shallow waters that one can imagine. Only 200 of the islands are inhabited, and a select few on each of the atolls are resorts and some of the islands are used for industry and agriculture.

The beauty of the Maldives is not only above the water. The Maldives is home to about five percent of the planet's reefs that comes with an explosion of color contributed by soft and hard corals that form them. The reefs are home to a thousand species of fish. Lured by the rich nutrients that flow in with the currents, large pelagic fishes such as manta rays and whale sharks also make the Maldives their home.

GUESTHOUSES

If you are more inclined to get a taste of local life, then one of the many guesthouses in a local island could fulfil your thirst for the new.

Experience your holiday in a local island and still get to enjoy all the serenity and fun the Maldives has to offer.

Diving, watersports, excursions are all on offer at guesthouses around the country. Many offer exquisite spa treatments as well. It's excitement for the whole family, romance for honeymooning couples, great fun for friends travelling together to experience a great time together mixed in with adventure.
